Education

UX Design Immersive (Certificate)
General Assembly | July '16

B.S. Business Admin (Management)
San Jose State University | Dec '14

Experience

UX Designer
Cisco | June '17 – Present

Helped create intuitive, cohesive, and seamless user experiences with patterns across Cisco Digital Network Architecture Center (DNAC).

– Design Quality Team (Design System)

Collaborated with product, engineering, design, and research teams to help create Cohesion Design System for DNAC.

– UX Quality Assurance Team (UXQA)

Drove pattern adoption across all DNAC products. Evaluated customer bugs, feature requests, and enhancements to create time sensitive design solutions.

– Assurance Team (App Team)

Designed monitoring & troubleshooting dashboards, detail pages, and components.

Product Designer
Howardjo.com | Jan '16 – Present

Worked with clients to create web, mobile, and graphic design assets based on project requirements.

Assets include: user research, style guides, user flows, wireframes, concept designs, persona user tests, and prototypes.
